### Mercedes-Benz Classic Online Parts Search

Mercedes-Benz Classic continually produces parts for classic vehicle series, in order to ensure the long-term availability of a full range of such parts. As a result, some 50,000 genuine parts are always available. To render the availability of these genuine parts transparent to everyone, the Classic Online Parts Search has been established as a swift and simple means of presenting the availability of parts with their valid prices in Germany, promotion parts and newly produced parts in a clearly arranged manner. Once the user has found the part they are looking for, it can be ordered from any authorised Mercedes-Benz service partner, as the Group's own sales and logistics network guarantees the swift supply of a comprehensive scope of parts worldwide. Mercedes-Benz 600 SL of the R 129 model series

### The technology platform celebrated its premiere 30 years ago

The Mercedes-Benz SL of the R 129 model series celebrated its premiere 30 years ago at the Geneva Motor Show. It is a technology platform: it brought innovations such as the automatically folding roll bar, integral seats and the Adaptive Damping System (ADS) into production. The model, as sporty as it is comfortable, continued to remain modern and attractive throughout its twelve-year production period. Today, the SLs of the R 129 model series are coveted young classics – and ALL TIME STARS, Mercedes-Benz Classic's own dealer, regularly has particularly attractive vehicles on offer. Start of the Le Mans 24-hour race, 1952

### 125 years of motorsport with Mercedes-Benz – Newsletter edition 3

Glorious victories in endurance races, road races and sports car competitions have characterised 125 years of motorsport with Mercedes-Benz just as much as the countless Grand Prix successes. These "star" moments include the victories in the Le Mans 24-hour race in 1952 and 1989, in the 1931 and 1955 Mille Miglia as well as the successes of the GT3- and GT4 racing cars by Mercedes-AMG. Such races make equally high demands of the reliability and the performance of cars as they do the driver and team.

Demonstration of the ABS anti-lock braking system

### Safety becomes active

Mercedes-Benz has been setting standards for active safety of the car since the 1970s. Each of the solutions support the driver and therefore lower the risk of an accident. Highlights include the ABS anti-lock braking system (1978), the ESP® Electronic Stability Programme (1995) and the DISTRONIC adaptive cruise control (1998). The ABC Active Body Control active chassis system presented 20 years ago in the CL of the C 215 model series is also a Mercedes-Benz development for active safety. Countless intuitive and intelligent technologies work together today in the Mercedes-Benz Intelligent Drive concept. Further information: <http://mb4.me/GH9OGCaL>
