Mercedes-Benz Classic Online Parts Search

Mercedes-Benz Classic continually produces parts for classic car series, in order to ensure the long-term availability of a full range of such parts. As a result, some 110,000 genuine parts are always available. To render the availability of these genuine parts transparent to everyone, the Classic Online Parts Search has been established as a swift and simple means of presenting the availability of parts with their valid prices in Germany, promotion parts and newly produced parts in a clearly arranged manner. Once the user has found the part is looking for, it can be ordered from any authorised Mercedes-Benz service partner, as the Group's own sales and logistics network guarantees the swift supply of a comprehensive scope of parts worldwide. Or an online order can be done (only for deliveries to Germany). Take a look for yourself: www.mercedes-benz.com/classic-parts
